

MEASURE ROOF CURB

MEASURE ROOF CURB

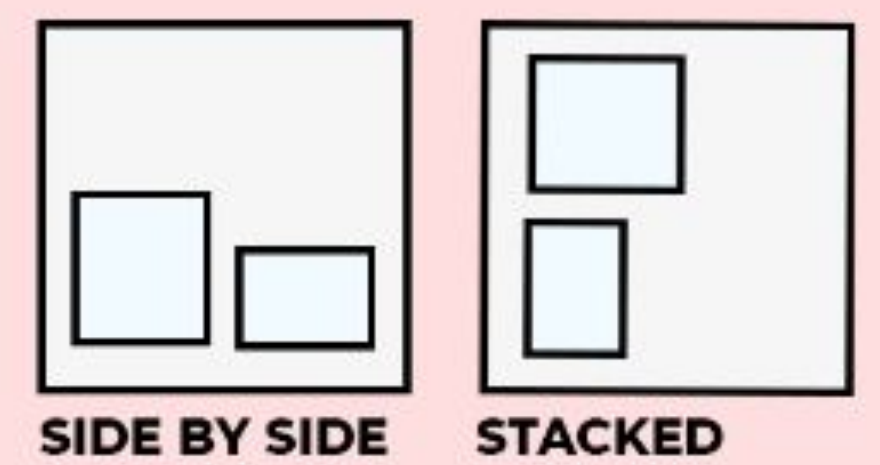

Job Name	RTU Number	Measure By	Date
PID Number	PO Number	Sales Order	

■ SIDE BY SIDE

Measurements Not Needed For This Side

 **Rotate form 90° to change view**

ROOF CURB HEIGHT

Instructions

- 1

Measure the TOTAL Outside Dimension for sides M, C, and S and write in the SUM boxes

2

For each side, measure the distance between the dotted lines and write the measurements in the box below it

3

Add up the dimensions on each side to ensure they equal the TOTAL from step 1

4

If they do match, check the math and remeasure until they do

5

Measure the height of the roof curb and enter in the ROOF CURB HEIGHT box

ROOF CURB HEIGHT
